

Clark Forklift

Clark Forklift Forklift Training - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive designs of forklifts, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Lean Manufacturing

Clark has chosen the very economical and advantageous structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was established to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engine Design

By working collectively, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering program combines modern product development and offers superior client support and service within the industry.
